1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. Continuation of 1. Amendments to the specification:

NOTES for box A.

Due to the quality of the facsimile transmission the following amendments fail to show all changes relative to the previous version. In particular, the letters/characters on the facsimile pages are not completely formed therefore strikethrough is not discernable in most of the replacement paragraphs. For example:

- The page 5, lines 20-26 replacement paragraph does not contain any perceivable markings at the fifth line (at the marginal indicator).
- The page 9, lines 3-15 replacement paragraph is not clear as to the revision to be made at the eighth line of the replacement paragraph because the revised line reads in part, "using a UV(ultra" having struck through the text [[violet light]]).
- The page 11, lines 11-15 replacement paragraph at the second line a close parenthesis is added before "limits" but there is already a close parenthesis on that line.
- The page 11, lines 21-24 replacement paragraph is not clear as to the revision that is made.
- The page 13, lines 7-12 replacement paragraph does not contain any perceivable markings at the second line (at the marginal indicator).
- The page 15, lines 22-27 replacement paragraph is not clear as to the revision to be made at the second line of the replacement paragraph because the revised line reads, "protection can be made available with having various options" which is confusing language.

Continuation of 4. Amendments to the claims:

NOTES for box E.

Due to the quality of the facsimile transmission the following amendments fail to show all changes relative to the previous version. In particular, the letters/characters on the facsimile pages are not completely formed therefore strikethrough is not discernable in most of the replacement paragraphs. For example:

- There is no perceivable revision at claim 5, line 1; however, the claim includes the "currently amended" status identifier.
